ABOUT US

A LITTLE BIT ABOUT OUR COMPANY

WATMAR was founded in 1989 as a mechanical engineering company, primarily servicing the defence sector. The stringent requirements of that sector required the company to develop high-level certifications, qualifications and technical capabilities. This fact, combined with our unwavering focus to customer service has enabled WATMAR to excel in a wide range of other industries including Power, Minerals, Mining and Oil/Gas. WATMAR delivers a wide range of fluid system specialised products and services and works directly with contractors, operators, major equipment suppliers and end users. WATMAR's services include;

- Fluid Systems & Equipment
- Engineering Services
- Engineering Contracting
- Asset Management
- OEM Equipment

FLUID SYSTEM ENGINEERING SPECIALISTS

FLUID SYSTEMS & EQUIPMENT

ENGINEERING FLUID SYSTEM SPECIALISTS

WATMAR manufactures and supplies a diverse range of Fluid Systems for the Water, Power Generation, Industrial, Minerals, Mining and Oil/Gas sectors. Our strategic partnerships with international equipment manufacturers allow us to design, manufacture, install and maintain innovative fluid systems that exceed expectations.

- Pump systems
- Desalination systems
- Water treatment
- Filtration
- Separators & purifiers
- Lubrication & fuelling
- Heat exchangers
- HVAC & cooling towers
- Control & monitoring
- Fire systems
- Hydraulic systems

ENGINEERING SERVICES LEADING PROVIDER OF ENGINEERING PRODUCTS & SERVICES

Our highly competent, multi-disciplined workforce provide quality, 24/7 service to the highest standards. Extensive in-house engineering capabilities gives us the flexibility to deliver a wide range of general engineering activities to support our Contracting, Asset Management and Fluid System projects.

- Equipment manufacture
- Mechanical fitting
- Welding & fabrication
- Equipment refurbishment
- Surface preparation & coatings
- System performance testing
- Installation & commissioning
- Electrical services
- NATA testing & calibration services

ENGINEERING CONTRACTING DELIVERING DIVERSE EXPERTISE TO ENGINEERING PROJECTS

Over the past 30 years WATMAR has built a comprehensive range of internal capabilities and a knowledgeable team of professionals located throughout our five strategically placed offices. We take a dynamic and flexible approach to our work which ensures that we surpass the expectations of our customers over a diverse range of projects.

- Project management
- Mechanical fit-out
- System engineering & manufacture
- Structural, mechanical & piping
- Non-process infrastructure
- Installation & commissioning
- Electrical and instrumentation

ASSET MANAGEMENT COMPREHENSIVE SUSTAINMENT & MANAGEMENT SERVICES

WATMAR takes a collaborative approach to asset management, providing innovative technical solutions to operational problems rather than continuing with costly repair and maintenance activities. Our broad engineering knowledge, engineering capabilities and extensive testing certifications ensures that your asset is in safe hands.

- Onsite maintenance services
- Engineering inspections
- System testing
- Equipment certification
- Plant upgrades
- Painting & coatings
- Programmed sustainment
- Shutdown services

EQUIPMENT PARTNERS

Our strategic partnerships with local and international equipment manufacturers allow us to design, manufacture, install and maintain innovative fluid systems that exceed expectations. WATMAR manufactures and supplies a diverse range of fluid systems for the Water, Power Generation, Marine, Defence, Industrial, Minerals, Mining and Oil/Gas sectors. WATMAR have also been assigned as regional Distributor for many of our partners.
